LETTER OF INVITATION

Dear Dr. Christian,

In continuation to our letter dated August 16, inviting you to India for a series of lectures and event participation, Gandhi King Foundation is happy to invite the extend the invitation up to October 15. That is your visit to India will be hosted by Gandhi King Foundation from September 20 to October 15, both days inclusive.

This was done in view of many requests from Universities and other institutions to arrange your talk to benefit their respective audiences. Your erudition and scholarship is known all over the world and we are happy that you were able to accommodate our request. We made your travel plans accordingly.

We look forward to an exciting tour of you in India which will benefit some 15 Universities and other institutions.

Thank You
Yours Sincerely,

Prof. Prasad Gollanapalli

Dear Dr. Christian,

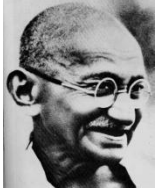

1. I write to you with immense satisfaction of your visit to India from September 20 to October 15 which is most fruitful. Gandhi King Foundation is grateful to you for accepting our invitation and give series of talks in several Universities, educational institutions, peace groups etc., which has given hope and confidence to all those working with Gandhian philosophy and programs. Your visit has opened up a number of new opportunities and programs to be taken up by several organizations. Your travel updates - from India to Germany make us happy that you are having a safe passage to Germany without any hassles.

2. This was an intensive tour as we tried to accommodate as many requests for your presence as possible. It meant, virtually travel every day which imposes several limitations, inconvenience and discomfort. You have put up with all that cheerfully and kept the sole objective of taking forward the message of the Mahatma to Indian audience. The silver lining and great relief is that you and I could keep up reasonably good health required to carry on the program.

3. Your devotion and dedicated work with intense research and organized information and knowledge is a great asset for the Gandhian Peace groups around the world. Your erudition and scholarship should be utilized by the organizations to strengthen their own understanding and work. Gandhi King Foundation will work on these possibilities along with Gandhi Information Centre, Berlin. To work in close coordination and cooperation we will have a Memorandum of Understanding (MoU) between the two organizations to work for the common mission.

4. We will work jointly on several projects, as discussed during your visit to India, some of them are:

- a) Bring out a publication of our joint travels in India giving talks in several Universities and Institutions. We also will bring out joint publications on Gandh and related matters. This work will also develop exhibitions and presenting them in Indian Universities and in other places during Conferences, training programs etc.
- b) Organize a Course on Gandhian Thought and its application online with faculty from international institutions.
- c) We will work on organizing Conferences, particularly in Europe - England, Germany and other countries.
